WORKSHOP OBJECTIVE

To provide students with the knowledge, confidence, and motivation to enable them to successfully apply and prepare for apprenticeship opportunities.

Our *Becoming an Apprentice Workshop* is aimed at 4th, 5th and 6th years and provides in-depth tuition on each step of the apprenticeship employment process.

The feedback we receive from schools and guidance counsellors is exceptional - as they believe the course fully equips their students with the skills to find apprenticeship opportunities, apply for the positions, and progress through the selection stages.

BENEFITS

APPRENTICESHIP PROMOTION

From our experience of working with students, parents, teachers, and guidance counsellors we find that there is still a substantial lack of practical information available to school students about gaining employment as an apprentice. This programme helps to provide this information and promotes the apprenticeship route in schools.

PERFORMANCE

Dramatically increase student chances of success in apprenticeship opportunities. We have a proven track record and our success rates are the best in Ireland.

PRACTICE

Our workbook and online resources allow students to practice the skills they have learned. This preparation gives our candidates the competitive edge over everybody else.

Incredible Value

Promote the apprenticeship route and its excellent career opportunities in your school

TESTIMONIALS

"My students found the whole session very practical and useful. The content was presented in a clear, precise and logical manner. The workbook provided is a true treasury of information for would-be apprentices. It is so comprehensive and indeed the ideas presented can be used for all students. An outstanding presentation."

Ann Marie Ward

St. Kevins Community School

"They got a lot from today's session and Eddie explained everything really well for them and gave apprenticeships the status they deserve. Thanks again for making this such an easy and informative session."
